# Did you know?

## PROBLEM

**There are dirty little secrets your IT guy does not want you to know.**

- Backing up to an external hard drive is NOT a solution. It is a disaster waiting to happen. Loss of data on a stolen or misplaced portable drive puts both your patients and your practice at significant risk.
- In the event of a disaster, most online backup companies can take up to *8 weeks* to restore your data!

## SOLUTION

The MBS fully managed backup service ensures that your data leaves your office everyday, safe, secure and fully encrypted. This not only protects your practice, but also the privacy of your patients information. Additionally the MBS Rapid Restore process ensures backups are fully restored within *days* not weeks.

# Did you know?

## PROBLEM

Many dental practices waste both time and money paying IT companies to manage and support their data backups. Many of these companies are generalists and not experts in the dental field. Not only does this put your practice at risk, but these hidden expenditures can add significant cost over time.

## SOLUTION

MBS provides a fully managed backup solution with complete 24X7 monitoring and advanced email notifications. MBS provides a complete turn key technical support group handling everything from installation to ongoing technical support for the life of your account.

# TOP 10 REASONS TO CHOOSE MBS

- 1 No equipment to buy, lease, operate or breakdown.
- 2 No software to purchase.
- 3 Automatic off-site protection.
  - A reliable solution that was proven during hurricane Ike.
- 4 Free up IT and staff members time.
  - No more paying an IT guy to fiddle with a backup that may not even work.
- 5 You aren't willing to compromise security for convenience.
  - Data is fully encrypted protecting both your clients personal and your practices critical data.
- 6 Tape and portable hard drives just do not work.
  - Just ask director Francis Ford Coppola. In 2007, thieves stole not only his computers, but also his backup device, a portable hard drive. The director lost 15 years of computer records, from writings to family photographs.
- 7 There is no excuse for keeping your Practice Data, Patient Data, Financial Data on portable drives that can be easily lost or stolen.
- 8 New and impending regulations – We are HIPAA compliant.
- 9 You will sleep better knowing your Data is fully protected from Natural Disaster, Theft, Accidental Deletions, or Hardware Failure....
- 10 Because MBS is the only Data Backup company Endorsed by the **TDA PERKS PROGRAM.**
